## ABOUT US

The Green Planet Association is an environmental NGO set up in 2009 by a team of people willing to change something in the Romanian environment and ecology.

## OUR BELIEFS

**WE ARE** an eco team for which the actions of protecting the environment are part of every natural gesture.

**WE BELIEVE** in the importance of the individual responsibility towards the environment and in a connection beyond the language, nation or values of all the people that love the environment.

**WE SHARE** to the public the good practice and continuous concern to the environment.

**WE ORGANIZE** actions and do campaigns in which we put together gestures, attitudes and results with positive impact upon the environment.

## OUR OBJECTIVES

**WE ARE CONNECTED** day by day to actions that focus on improving national environmental practices and on those who generate in a widely nature-friendly behavior.

**WE ACHIEVE GREEN** campaigns to promote eco concepts and practices.

**WE ORGANIZE** events, forums, congresses, exhibitions, debates, seminars, national and international symposiums to facilitate the exchange of experience among nations.

**WE GET INVOLVED** in education by bringing ecology to the students' attention, starting in early childhood.

# HISTORY

## inVerde project

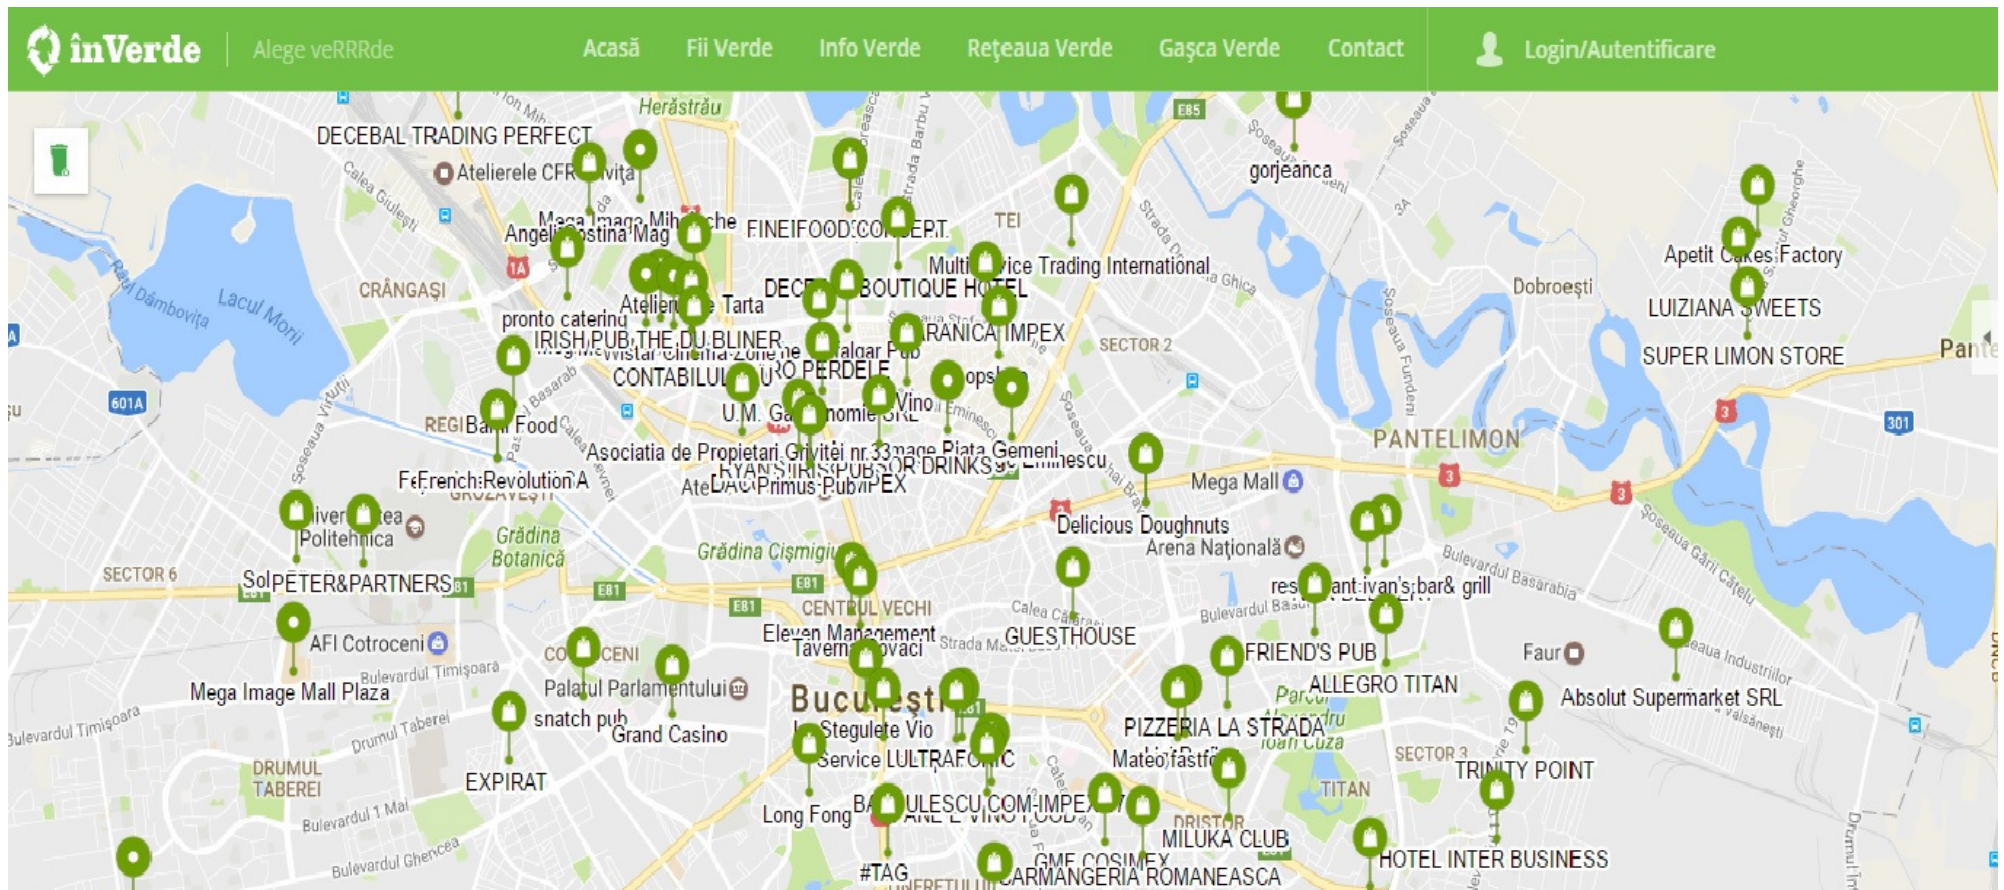

The implementation of an **on-line system meant to correlate the waste generators from HORECA and Retail** with authorized collectors for selective collection of packaging waste.

### OBJECTIVES

- ✓ Increase awareness of the population regarding the selective collection of packaging waste
- ✓ Increase the involvement of packaging waste generating companies in HORECA and Retail

## inVerde OBJECTIVES

- ✓ Increase awareness of the population regarding the selective collection of packaging waste
- ✓ Increase the involvement of packaging waste generating companies from HORECA and Retail
- ✓ Increase the involvement of employees of packaging waste generating companies from HORECA and Retail
- ✓ Implementation of an on-line collaboration system between generators and collectors
- ✓ Increase in quantities collected and recycled at national level

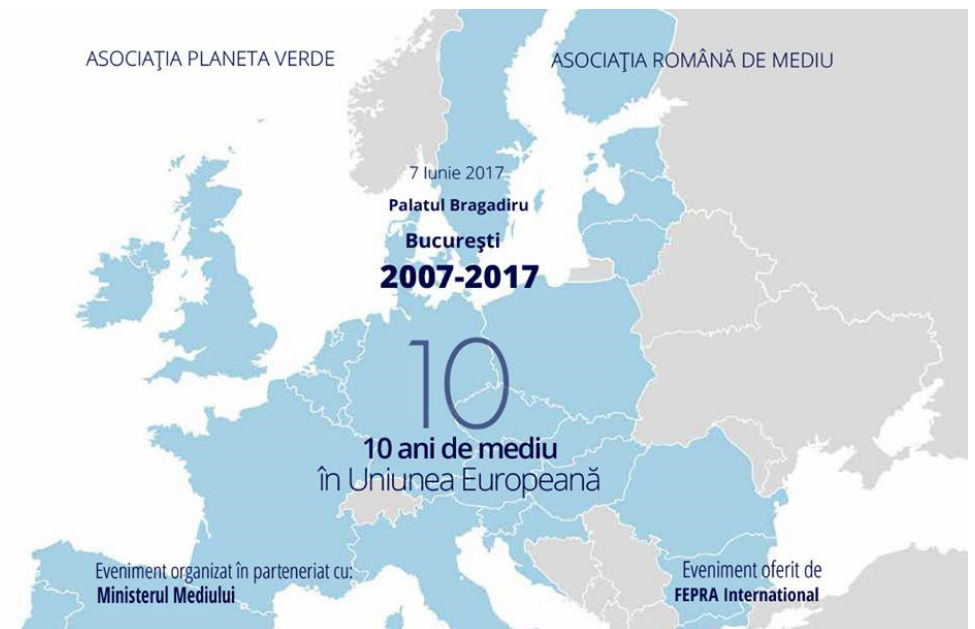

# FUTURE PROJECTS

**1. Regional Conferences “European Recycling Society – Waste Management and Authorization”**

**2. “Romania – 10 years in the European environment”, 7 june – Bragadiru Palace – former ministers and the current environmental minister will sign the ENVIRONMENT DECLARATION.**
