

The regional dimension of sustainable development

Prof.Dr. Daniela-Luminita Constantin
Bucharest University of Economic Studies
Romanian Regional Science Association

Introductory remarks

Bucharest-Ilfov RDA – Romanian RSA partnership

- Workshops, round tables, conferences:

The 11th International Conference of the RRSA – 12-13 May, 2017,
Pitesti – “Future Dynamics of Regional development and Planning” –
sections dedicated to sustainable regional development

24 May, Casa Cesianu – Regional Dynamism from A to Z (Dr. M.Enache,
U.S. – President of International Urban Alliance”)

- ERSA, RSAI

BI-RDA – BUES

March 2017 – **Sustainable Development Forum:**

FAPM – BI-RDA – the support to SD in BI Region via Regio

Meetings with undergraduate and master students

The regional dimension of SD – theory and practice

SD – twofold challenge – improve and maintain the well-being of both people and ecosystems

Key elements:

Equity – achievement of social justice in the distribution and accessibility to resources in both space and time

Environment – nature's rights and values

Development – ec. dev. able to guarantee the quality and quantity of natural resources

Spatial externalities – positive, negative

Gradual process

Weak/strong SD

Behavioural challenges: participation, communication, mentalities, attitudes

Strategies – programmes – projects – EU funds

Integrated territorial development

Smart cities – quality of life

Etc.

Va multumesc!
