**Eurostat, 2014 (published 2016)*

Urban regeneration and Regional Operational Program in Bucharest Ilfov Region.

Urban regeneration policies and projects include pressures from major short- or long-term economic problems, dezindustrialisation, demographic changes, underinvestment, infrastructural obsolescence, structural employment issues, physical deterioration, and physical changes to urban areas.

Urban regeneration and Regional Operational Program in Bucharest Ilfov Region.

Typically, urban regeneration actions involve economic, social and physical/ environmental improvement measures in the areas under intervention.

The efforts and innovations that cities are undertaking to tackle these challenges can and should be strengthened and facilitated by the wide range of EU-level strategies, programmes and initiatives in these fields.

Urban regeneration and Regional Operational Program in Bucharest Ilfov Region.

Regional Operational Program (ROP) 2007-2013

The integrated urban development and regeneration plans contributed to the achievement of specific objective of ROP, namely increasing the economic and social role of urban centers, in order to have a more balanced development of regions.

Urban regeneration and Regional Operational Program in Bucharest Ilfov Region.

The integrated urban development plans were implemented by projects addressing the following issues:
