### Innovative technologies and partnerships in developing regions

Go back

October 11, 2018 from 11:30hs to 13:00hs

The workshop will share factual experiences in using the 2014-2020 ESI Funds. It will present the benefits of public-private collaborations in Poland and Romania to reflect on how to improve European citizens' daily life by providing access to innovative healthcare. The event will combine the regional outlook, EU institutional framework and voice of the healthcare industry. It will illustrate how EU cohesion policy directly impacts EU citizens' life in a fast-paced innovative society. Enriched by an interactive voting system, it will be an excellent arena for exchanging ideas and providing policy recommendations for the next EU budget.
