Science and Technology

Inauguration

Only healthy ideas can fly all over the world

Brussels, 21 March 2006

Romanian Office for
Science and Technology

Only healthy ideas can fly all over the world

Legal frame

The establishment in Brussels of the Romanian Office for Science and Technology to European Union, was approved by the Government Decision no. 787/2005, having the goal to strengthen the Romanian participation in the ERA.

ROST belongs to the Ministry of Research and Innovation and acts under the supervision of the Department of European and International Cooperation

Romanian Office for
Science and Technology

Only healthy ideas can fly all over the world

Romanian Office for Science and Technology to the European Union - ROST -

Following services are provided to the Romanian R&D and Innovation institutions, public or private, and scientific community:

- promotion of the Romanian research-development-innovation system;
- searching and facilitating links with European partners;
- specific dissemination and promotion;
- facilitating the connections with the European institutions, similar bodies, national institutions and organisations;
- recommendations regarding the European best-practices in the research-development-innovation field.

Expected results on long term:

* achieving a participation level of the Romanian scientific community in the research framework-programmes comparable to the European average;

* gradually increasing the integration of the Romanian scientific community in the research framework programmes.

6 vacancies are reserved for the R&D&I Romanian public and private institutions interested in participating in the European research programmes. Specific Protocols of cooperation are signed to this end.

Protocols of cooperation with ROST

- “Centru” Regional Development Agency, Alba-Iulia
- National R&D Institute ICPE-CA, Bucharest
- Romanian National Council for SMEs
- National R&D Institute for Physics and Nuclear Engineering “Horia Hulubei”, Bucharest
- ROSA – Romanian Space Agency
- Tehnopol Galati
- PATROMIL
- Romanian Centre of Energy
and
ASM - Academy of Sciences of the Republic of Moldova

European Structural and Investment Funds (ESIF)

Five main Funds work together to support economic development across all EU countries, in line with the objectives of the Europe 2020 strategy: European Regional Development Fund (ERDF), European Social Fund (ESF), Cohesion Fund (CF), European Agricultural Fund and Rural Development (EAFRD), European Maritime and Fisheries Fund (EMFF).

Every EU region may benefit from the ERDF and ESF. However, only the less developed regions may receive support from the Cohesion Fund.

Member States are responsible for managing programmes that are supported by Cohesion Policy.

Horizon 2020 is the EU Research and Innovation programme, a financial instrument implementing the Innovation Union, a Europe 2020 flagship initiative aimed at securing Europe's global competitiveness.

Budget: ~ €80 billion over 7 years (2014 to 2020) – in addition to the private investment that this money will attract.

Goal: to ensure EU produces world-class science, removes barriers to innovation and makes it easier for the public and private sectors to work together in delivering innovation.

Horizon 2020 is open to everyone.

European Commission is responsible for managing the programme.

Where to find funding opportunities?

- **The Funding & Tenders Portal** is the single entry point for applicants, contractors and experts in funding programmes and procurements managed by the European Commission.
- <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home>

H2020 participations EU vs. RO

	EU	RO
H2020 Participations	91.848 (100%)	784 (0,85%)
H2020 Unique Participants	27.475 (100%)	344 (1,25%)
H2020 Net Contribution	33,63 B (100%)	119,6 M (0,36%)
H2020 Total Cost	42,57 B (100%)	153 M (0,36%)
H2020 SME Participations	18.873 (22,55%)	114 (14,54%)
H2020 SME Net Contribution	5,71 B (16,99%)	16,64 M (13,91%)
