

# WORKSHOP DETAILS

- Title:** Towards resilient, sustainable and resource-efficient cities and regions
- Code:** 10C16
- Chair:** Eryuce, Onur Kadir
- Organisers:** Resilient cities and regions network
- Themes:** Theme 3: Sharing knowledge to deliver results
- Speakers:** Abrunhosa, Ana  
Atac, Ahmet  
Bayona Lopez, Alberto  
Giannou, Dimitrios  
Ionescu, Claudia  
Zagar, Ivan
- Capacity:** 125
- Location:** Permanent Representation of Slovenia
- Date:** 10/10/2017 [11:15-13:00]
- Refreshments:** No
- Lunch:** No
- Dinner:** No
- Brief:** The EU faces a range of environmental, social, and economic challenges and the need to create a strategy of urban resilience has become increasingly urgent. Empowering local authorities and allowing them to build resilient communities is the best way to minimize the risks. The workshop will explore issues for urban resilience such as climate-related health risks, sustainable urban development planning, circular economy, smart specialization strategy, rural-urban linkages, risk transfer and energy efficiency. The presentations will deliver cases including financing experiences with the EIB, circular economy projects, risk management, integrated climate adaptation and energy solutions, process design and strategic urban planning.
- EU, national, regional and local policy/decision makers  
Authorities managing and evaluating cohesion policy programmes and projects
